JUSTIFICATION STATEMENT FOR CONTRACT AWARD

Division of Wildlife Resources
Logan Fisheries Experiment Station General Improvements
Phase I – Mechanical and Electrical
DFCM Project No. 02255520

As a result of all but one proposer being able to come within the \$89,125.00 budget, even with acceptable cost reduction proposals, the Selection Committee interviewed the only firm that submitted a proposal within the budget – A.H. Palmer and Sons, LLC.

Nonetheless, the A.H. Palmer and Sons team was able to demonstrate to the Selection Committee important elements that are critical to the success of the project:

- Excellent superintendent qualifications and a thorough knowledge of the scope of the project;
- Past working relationship with their selected subcontractors and the subcontractors' knowledge of the scope of work;
- Ability to address the project risks and ways to mitigate them; and
- Ability to communicate and coordinate with key personnel at the site.

Based on these, the Selection Committee was unanimous in its recommendation to award this contract to A.H. Palmer and Sons, LLC.
